The 2020 Cortona Jazz Workshop was started in 2018. It offers students from all over the world the opportunity to experience 4 days of highly interactive and immersive workshops and master classes under the tutelage of 4 internationally renowned Jazz musicians coming from the USA and Europe, taking place in Cortona, a historical city located in the heart of Tuscany.

The 4 days long workshop features an in-depth immersion into the practice of the contemporary Jazz tradition with a special emphasis on composition and live performance.

During the day, the students will be playing and interacting with the faculty in small groups for a total of 5 hours. They will work on creating and integrating an original repertoire as well as practice different techniques and facets of the contemporary Jazz vocabulary. Their repertoire will be performed during night concerts. These concerts will also feature special projects performed by the Faculty, all taking place in various sites through the city.

After the concerts, all students are invited to play at the Festival's nightly Jam Sessions.

Teaching will be done primarily in English.

The cost for the workshop includes
